🔗 Portfolio Website 🐙 GitHub Profile

Profile

Motivated and detail-oriented Front-End Developer with hands-on experience building scalable, responsive, and performant React.js applications. Proficient in JavaScript, HTML, CSS, and modern front-end tooling. Passionate about clean code, UI/UX principles, and continuous learning. Seeking to contribute to a dynamic team focused on delivering impactful digital products.

Education

Bachelor of computers and information technology (IT), 09/2020 – 06/2024
Egyptian E-learning university Assiut, Egypt

Experience

Freelance, Front-End Developer 08/2025 – Present

- Developed and delivered production-ready websites for real clients
- Built the front-end of Asco Construction Company website using React
- Developed the front-end for Saint George Market (US-based supermarket)
- Implemented responsive UI, reusable components, and clean layouts
- Collaborated directly with clients and delivered projects end-to-end

Shalaby 🌐, Site administrator (Accountant) 05/2025 – 08/2025

- Managed financial transactions and ensured accurate processing of contractors' and suppliers' invoices.
- Monitored project budgets, controlled daily expenses, and prepared financial reports.
- Coordinated with project managers to align spending with construction progress.
- Maintained organized records for all payments, purchase orders, and cost documentation.
