Profile

I am a motivated and detail-oriented IT graduate with a strong foundation in front-end development. I am proficient in HTML, CSS, JavaScript, TypeScript, and React and have hands-on expertise in building responsive and user-friendly web applications. I am passionate about using my creativity and technical skills to contribute to innovative projects, and I aspire to grow as a front-end developer

Training

React Front-End Web Developer, *Digital Egypt Pioneers initiative - Depi* 10/2024 – 04/2025

Frontend Development, *HTML& CSS and project discussion (ITI)* 2022

Bachelor of computers and information technology (IT), 09/2020 – 06/2024
Egyptian E-learning university Assiut, Egypt

Graduation project: Medical community (A+)

Projects

Digital [🔗](#) 11/2024

The "Digital" website uses HTML and CSS, utilizing the Grid system to provide a flexible and organized structural design. It features a responsive layout that ensures the content is displayed consistently and professionally across various devices.

OMONAC [🔗](#) 10/2024

A website designed using HTML and CSS, offering online educational courses with a responsive and user-friendly interface that displays content professionally.

Shopping. [🔗](#) 04/2021 – 05/2021

The project entails developing a responsive online shopping website using **HTML** and **CSS** for structure and layout, enhanced with **JavaScript** for interactivity. The **jQuery library** is employed to simplify coding and introduce dynamic effects.
